

Trenton Gibson

Brand guide, Evergreen. The inside of a hooper's head.

Logo

Portrait is the main mark: intros, end cards, shirt fronts, banner.

TG monogram for small spaces: avatar, watermark, chest or sleeve print.

Bone on night, forest, plum or oxblood. Night on bone. No effects, never stacked.

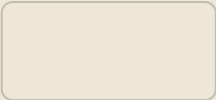

Color

Forest #24402F
Lead color

Night #0E1511
Screen ground

Bone #EEE7D8
Text and print ink

Plum #4B2742
Panels, note cards

Oxblood #6B1D27
One accent per frame

Glow #8CC4A4
Particles, nodes

Shirts: forest, plum and oxblood colorways, all printed in bone.

Type

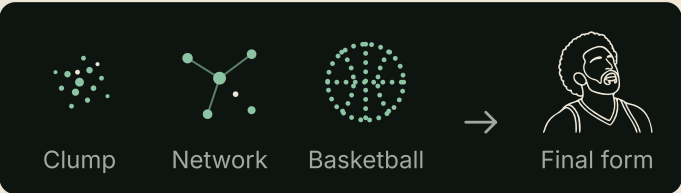

Cormorant Garamond 500 for titles and anything that should land.

Inter 400 and 500 for supporting lines and documents.

Second line dimmed. Sentence case. No mono labels or tracked capitals.

Motion: seed, then materialize

Particles gather (about 1.8s), then settle into the logo, a title, a stat or a clip (about 2s).

Text fades in from a soft blur over 1.2s. Hold for 2s or longer. No snaps, bounces or whooshes.

Iconography

No icon set. When a graphic needs a symbol, draw it with the particles: a ball, a rim, court lines.

Glow on night or forest. Never emoji, clip art or sports icon packs.
